PROJECTS

Dispensary & Pharmacy Management System - Diploma final project

With this system, I've managed to reduce the risk of dispensing wrong medicines from pharmacies for prescriptions. Given the opportunity to track each and every patient's medical history.

[DPMS](#)

Point of Sale - C#

This is a C#-based Windows application designed to handle all warehouse inventories smoothly, recording sales and customer details efficiently.

[POS C#](#)

eMart

An ecommerce application developed using flutter.
